Dear Dan,

I am following up on the label amendment request for Liqua-Tox II EPA Reg. No. 12455-61. In our conference call in early November, you indicated that you could possibly have the amendment approval by the end of November. Can you give me an idea of when I can expect to receive this? This is somewhat urgent since we have to send the amendments for approval to the states and New York is now taking 4 1/2 months to review label amendments. Of course, we need to have everything ready by June 4, 2011.

Thanks,

John Lublinkhof
